I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have Severe Food Allergies. I need to know if there is a corn or gluten or dairy byproduct in my medication. Doctors And pharmacists are clueless. They only know the 'active' ingredients. It takes days to weeks to get a response from the drug companies. Often the medication doesn't exist free from my allergens. These compounding pharmacies are important to people like me. Don't discriminate ^{against} us. Help us keep these special pharmacies.

Sincerely

D. Brown
